

Joe Traversa

Pianist & Singer

Joe's musical adventure began at just fourteen years old in Tortona (Italy), in the province of Alessandria, and has turned into an extraordinary journey that has taken him to the most remote corners of the planet.

In the 70s he created his first bands, playing in Piedmont and other regions of Northern Italy. Over time, he embraced songwriting, making his music known, performing at weddings and events, where he could express his creativity in an increasingly personal way.

Joe has taken his music beyond national borders, performing in prestigious places such as the "Chaika" in Moscow and other exclusive restaurants in the Russian capital (Mario, Don Carlos & Calvados).

He has also worked in French Polynesia, aboard a luxury cruise ship, where the crystal clear waters and starry sky have been the backdrop to his performances. His musical adventure finally took him to China, to Zhengzhou, Xi'an and other important cities.

With a selected repertoire of covers that ranges across different genres and an extraordinary sound, Joe with his voice and his piano, always manages to capture the attention of the audience, adapting his performances to different situations and requests.

He therefore has a consolidated experience of domestic & international (Europe & Asia) work in Party evenings, ceremonies & events as well as high-level Hotels & Restaurants, Lounge & Concert Cafés, Music Bars, Pre-Disco and Night Clubs, Ocean and River Cruise Ships, from background music to events and street parties!

He can perform (acoustic or digital piano):

- piano & voice with the support of backing tracks;
- only piano & backing tracks;
- only piano & voice;
- only piano only for background music
- djs available for 70s/80s dance & lounge music evenings.
